

Professional workstations tailored for your business.

Specialised PC workstations offer high-performance and dependability for your business needs.

GML recommends Fujitsu machines for their high-quality, quiet, energy-efficient and reliable operation.

All workstations are available with 5-year next-business-day on-site warranties, meaning in the event of a hardware issue an engineer will visit on the next business day to repair or replace hardware and get you back up and running.

Fujitsu Select Partner

GML is a Fujitsu Select Partner, providing us with access to the full range of workstation and server configurations, laptops, thin-clients, monitors, peripherals and warranties you can rely on for your business.
